### EDUCATION

 Georgia Institute of Technology ('16-'18)

- M.S. Human Computer Interaction (IC track)

 Stony Brook University ('12-'16)

- B.S. Computer Science with Honors
- Minors in Digital Art and History
- Studied abroad at EFREI and University of Seoul

### EXPERIENCE

 Volunteer, AE Lab (Fall '16)

- Developed an augmented reality storybook for the Augmented Environments Lab using Argon.js

 Pypester, Pypestream (Summer '16)

- Developed admin CMS for Pype Managers in React.js and Redux.js, resolved >100 CSS bugs
- Coded new features like agent management for a 3.1 launch to be used by enterprise clients
- Participated in UAT and designed mockups for new features requested by clients in Sketch

 Student Leader, Codepath (Spring '16)

- Led a 1 app per week 12-week student bootcamp to teach and learn iOS development in Swift

 Graphic Designer, SBU (Fall '15-Spring '16)

- Created web graphics, flyers, and other promotional material for department events

 Digital Products Intern, HBO (Summer '15)

- Assisted in front-end development using react.js of an internal HBO CMS
- Developed a search feature from UX research, UI designs, and front-end implementation
- Designed mockups and wireframes of potential HBO NOW features, and presented to SVPs

### PROGRAMS

 Xcode  Sketch  Unity  Photoshop

 Framer  Blender  Invision  After Effects

 Marvel  Zeplin  Figma  Illustrator

### PROJECTS

 The Hive (Fall '16)

- Researched and designed a conceptual tree to guide students to open seats in the library to reduce seating times

 Graffiti, Pennapps (Sept '16)

- Designed and developed an AR app in Swift for iOS which allows users to leave virtual graffiti around the world

 Dots (May '16)

- Created a video with After Effects inspired by Google Now's branding; purchased by SBU's president

 Roam, HackNY (Sept '15)

- Created an Android app in Java which lets you get Google Maps directions with no data

### LANGUAGES/FRAMEWORKS

 HTML	 React
 CSS	 Sass
 Javascript	 Less
 Bootstrap	 Swift
 Python	 Java

### RESEARCH SKILLS

- Survey Design
- Contextual Interviews
- Affinity Mapping
- Low to High Fidelity Prototypes
- Usability Testing

### FUN FACTS

 (Fluent)  (Basic)

 gt-webdev (Officer)
